

CLEAN EARTH / ESMI OF NEW YORK RD&D PERMIT APPLICATION #5-5330-00038/00027

The reverse side of this postcard contains additional information about the proposed project for which Clean Earth / ESMI is pursuing the research, development & demonstration (RD&D) permit

For more information, please review the Public Participation Plan website by scanning this code or going to:

<https://Pages.CleanEarthinc.com/New-York-ppp>

CleanEarth

ESMI OF NEW YORK

304 Towpath Lane

Fort Edward, NY 12828

INVITATION TO ATTEND A PUBLIC INFORMATION MEETING

Wed., June 18, 2025 | 6:00 – 8:00 pm EST

Hudson Falls High School

80 E. Labarge St., Hudson Falls, NY 12839

Virtual attendees may join via the following URL:

<https://us06web.zoom.us/j/87882259942>

or by calling: (646) 931-3860 | Webinar ID: 878 8225 9942

YOUR ATTENDANCE IS IMPORTANT!

At the meeting, YOU will:

- Receive information, along with your Hudson Falls and Fort Edward neighbors, about the permit application for a two-week RD&D project
- Understand the proposed project timelines and important milestones
- Provide an opportunity for YOU to ask questions

CLEAN EARTH / ESMI OF NEW YORK RD&D PERMIT APPLICATION #5-5330-00038/00027

INVITATION TO ATTEND A PUBLIC INFORMATION MEETING

Wed., June 18, 2025 16:00 – 8:00 pm EST
Hudson Falls High School
80 E. Labarge St., Hudson Falls, NY 12839

Virtual attendance information is on the reverse side

PERMIT/PROJECT INFORMATION

A Public Participation Plan, per NYSDEC Commission Policy 29 (CP-29) Environmental Justice and Permitting, plus project-specific documents are available at the following website: <https://Pages.CleanEarthinc.com/New-York-ppp>

WHAT IS THE PROPOSED PROJECT?

- ESMI would conduct a short-term test treating 5,000 tons of PFAS contaminated soil.
- Testing would occur under NYSDEC RD&D Permit approval and last approximately two weeks.
- All NYSDEC approved emissions and soil sampling will be completed by third-party accredited laboratories.

**For more
information,
contact:**

Clean Earth / ESMI – Rob Martin at (877) 685-8312, rmartin@cleanearthinc.com
 or in writing: ATTN: Public Participation Plan, 304 Towpath Lane, Fort Edward, NY 12828
 NYSDEC Region 5 Warrensburg Sub-Office – Beth Magee at (518) 623-1283,
beth.magee@dec.ny.gov or in writing: 232 Golf Course Road, Warrensburg NY, 12885

WHAT IS THE PROJECT'S PURPOSE AND IMPORTANCE?

- The project intends to demonstrate that thermal desorption can treat soil to meet NYSDEC PFAS soil clean-up objectives, and that thermal oxidation destroys PFAS and controls products of its incomplete destruction.
- This research will help to ensure New York State has the science necessary to develop safe PFAS clean-up regulations.

HOW MIGHT THE PROJECT AFFECT THE COMMUNITY?

- EPA Models demonstrate that PFAS, hydrofluoric acid (HF), and tetrafluoromethane (CF₄) emissions are below NYSDEC health-based ambient air quality standards.
- There will be no additional noise, odor, light, or construction activities associated with the project.

IF I CAN'T ATTEND ON JUNE 18, HOW CAN I ASK A QUESTION?

- Prior to June 25, questions can be emailed to information@cleanearthinc.com, asked by phone at (877) 685-8312, or entered into a form on the website: <https://Pages.CleanEarthinc.com/New-York-ppp>
