Grant Coordinator Darlene DeVoe submitted the following grant report for June 2017:

### **Grant Coordinator Report for June 2017**

Submitted by Darlene DeVoe 6/12/2017

#### **BOA Step 3 –**

The Preliminary Design Report (PDR) is complete and final maps are ready for submission to DOS.

The environmental engineers are working on the DEIS and SEQR components, most of which are in regard to build out of the industrial park.

Our team will be meeting with DOS next month.

#### **HOME 2013 –**

We need cases! Our fourth project went under contract today. One project is under construction and two have been completed.

Several other applications have unfortunately been deemed ineligible due to income limits and/or a lack of insurance coverage.

I encourage people to check out the program paperwork available in both municipal offices.

*Note: It is important for people to READ THE ENTIRE application packet and compile ALL of the required information BEFORE submitting it to us with incorrect or insufficient information. This does not expedite their application and instead is likely to cause the application to be dropped down on the list. Most importantly, we DO NOT want ORIGINAL documents. That includes taxes, deeds, pay stubs, insurance certificates, and bank statements.*

#### **EPA Petroleum Assessment Grant -**

CT Male got underway last week with their initial site visit of the Freight House and surrounding property. The interviews begin this week.

1099 Burgoyne Phase 2 ESA is in its last stages before it can be finalized.

Unfortunately, we received a double dose of bad news this month. Our Project Manager at BRS, Beth Lander Morris is leaving.

And, we were not awarded the Hazardous Substance Assessment grant. The entire state of NY received \$750,000. Pathetic.

### **Community Planning –**

The Town Master Plan is coming together much better as a new document and not an update. At this point 3 sections are complete: Demographics, Municipal and Inter-Municipal Resources, and Educational.

Town Historian Paul McCarty is drafting the Historical section. I am seeking assistance from the Friends of the IBA to contribute to the Scenic and Open Space section next.

In progress are Economic Development, Transportation, Land Use, Parks and Recreation, and Agriculture.

Anyone that would like to contribute thoughts or ideas that will positively impact the Town of Fort Edward are highly encouraged to do so this summer.

### **Champlain Canalway Trail –**

There is confusion going on with the new Empire Trail funding because applications that have been in for CCT communities were denied HRVG grants because they felt they were duplicating what the Empire funding could do. This is not an acceptable way to reward the years of hard work and collaboration that this group has invested. We are actually implementing our plan and continue to hone it as each community faces and conquers challenges.

### **Bradley Beach –**

Still nothing from DOS

### **CFA 2017 –**

A recap of ideas from the past couple of meetings:

A pump-out facility to service the Yacht Basin

Potential Canal Corp/Power Authority, DEC

Pool improvements

No programs offered

Water District 3 \*need district formation\*

Trail creation and improvement projects to support the Champlain Canalway Trail

Depending on location and connectivity, Canal Corp, DOS, Parks & Rec

Small amphitheater in Yacht Basin

Canal Corporation, DOS

- Discussion regarding a request from a resident for a speed limit reduction on County Rte. 46 between State Rte. 4 and the Drifting Ridge Development. We would need a resolution to send to Washington County DPW stating several children are in and out of the development. The request is to reduce the speed limit from 55mph - 30mph, the letter would be sent to Steve Haskins at the County due to it being a County Rd. and he will send a letter to the State.

**MOTION** by Councilman Orsini, Seconded Councilman Fisher to send a letter to Steve Haskins at the Washington County DPW in support of a speed limit reduction on County Rte. 46 from 55mph to 30 mph **ALL AYES**

**Merrilyn Pulver-Moulthrop:** I live on County Rte. 46 and I don't see a lot of kids out there. I would imagine they would need a traffic study.

**Audina Papp:** I second what Merrilyn said in that I travel that road frequently and there are not a lot of children in that area.

**OTHER BUSINESS:**

**Global Partners  
Information**

**Allen Stratton:** Consulting firm for Global Partners which is a diversified energy marketing company. Global Partners is trying to lease land in the Industrial Park to store 50 rail cars of propane for up to 6 months at a time. They hold the product for a period of time on price. They are working with DA Collins to extend the use of the property.

**Supervisor Suprenant:** Where are the cars now?

**Adam Lombrtire:** It depends; they are all over the place in a cycle of transport.

**Supervisor Suprenant:** Are the cars up to code?

**Sid Decell:** Yes 100%

**Councilman Middleton:** Can you hook 80 rail cars together?

**Sid Decell:** Yes if it meets tonnage requirements and they are spaced properly. The facility will be fenced in and lit, monitored on a regular basis and have regular compliance inspections.

**Councilman Middleton:** What about bleed off in the heat?

**Adam Lombrtire:** They are pressure cars, they shouldn't bleed off but it is a possibility.

**Supervisor Suprenant:** How long are you planning to do this?

**Sid Decell:** It depends

**Supervisor Suprenant:** What is the benefit to the Town?

**Adam Lombrtire:** The significant benefit is that the property will be expanded.

**Matthew Hurlburt:** How many gallons per car?

**Sid Decell:** 29.5 gallons

**Matthew Hurlburt:** Do you have team for leaks?

**Adam Lombrtire:** Yes, we have standing contracts with response outfits to handle any uncontrolled release.

**Matthew Hurlburt:** How far away are they?

**Sid Decell:** Albany

**Matthew Hurlburt:** I would recommend security be 24-7 for a facility like that.

**Sid Decell:** Cars are sealed

**Supervisor Suprenant:** Are there any incidents on record?

**Sid Decell:** No not with propane

**Mary-Ellen Stockwell:** Do you have any other NY sites?

**Adam Lombrtire:** Yes we have a fixed terminal site on Erie Blvd. in Albany.

**Merrilyn Pulver-Moulthrop:** I was supervisor when we had an ammonia leak and that did an awful job on the Village for 3 days. We had to declare a State of Emergency. I think you should think long and hard about this. I would question whether it's a valuable use of the space. It will only benefit the company.

**Adam Lombrtire:** While I am sympathetic to the statements made, we want to work with the Town to address concerns; we will be prepared with both the assets and the resources.

**Matthew Hurlburt:** How many other rail yards do you have and do you have a record on incidents?

**Sid Decell:** I'm sure we could come up with something.

**Merrilyn Pulver-Moulthrop:** This day in age I don't think it's unreasonable to consider terrorist attacks on a site like this.
