

Ian Latimer, Project Manager from NYSERDA's Clean Energy Siting Team, will be joining us at 7:00 PM on Monday, November 30th, for a discussion regarding clean energy in the Town of Fort Edward. As many of you are aware, there are multiple large-scale solar projects proposed in and around the Town of Fort Edward, so this is an opportunity for us to gather additional information regarding these projects, including the Town's role in siting and permitting, as well as regarding clean energy more broadly. Ian has offered to speak on a number of topics in this presentation, including:

- RPTL § 487 and PILOTs
- Solar & agricultural lands
- Energy storage systems
- State-level siting for large projects

Between now and November 30th, if there are any topics or questions that you would like Ian to address or be prepared to speak on, please reach out to him at ian.latimer@nyserda.ny.gov. We will utilize NYSERDA's Webex for the meeting, as it does not have a 40-minute limit which might interrupt our discussion. Instructions for logging into the meeting are included below:
